PROFESSIONAL SUMMARY

Goal-oriented Software Developer with a strong foundation in Java, React, HTML, CSS, and Python, complemented by modern web technologies. Demonstrated ability to build and deploy scalable applications through academic projects and hands-on coding challenges. Possessing strong problem-solving skills and a commitment to clean code practices, I am eager to contribute to innovative software solutions in a dynamic environment.

CORE COMPETENCIES

Programming Languages: Java, Python, JavaScript, C programming

Web Technologies: HTML, CSS, React

Operating Systems: Windows, Linux/Ubuntu

Software Tools: Microsoft Office Suite, Graphic Designing Tools (Corel, Photoshop), Cybersecurity Basics, Digital Art Basics, Tally

Networking: Computer Networking, Internet

Other Technical Skills: Hardware & Architecture, Computer Programming Basics

Miscellaneous: Typing Speed 69WPM

PROFESSIONAL EXPERIENCE

Technical Mentor

2024-06 - 2025-05

National Institute of Computer Software *Haraiya Basti*

- Mentored over 30 students in core programming concepts including C programming, HTML, CSS, and web development.
- Successfully debugged and resolved more than 100 technical issues in peer projects, ensuring smooth execution and timely submissions.
- Developed and delivered engaging lesson plans and resources to enhance student learning experiences.
- Fostered a collaborative environment that encouraged peer learning and skill sharing among students.

EDUCATION

UP Board

2023

10th Passed

UP Board

2025

12th Passed

Goel Institute of Higher Studies Mahavidyalaya

2025 – 2026

Bachelor of Computer Applications (BCA)

Dear Hiring Team at Undisclosed Innovative Tech Company,

I am writing to express my strong interest in the Software Developer position, as my background in modern web technologies and robust problem-solving skills align directly with the requirements of an innovative tech environment. My experience as a Technical Mentor, coupled with a solid foundation in Java, React, HTML, CSS, and Python, prepares me to contribute effectively to your company's solutions.

In my recent role as a Technical Mentor at the National Institute of Computer Software, I cultivated a practical understanding of software development cycles and debugging. I successfully debugged and resolved over 100 technical issues in peer projects, ensuring timely submissions and smooth execution. This experience honed my analytical capabilities and reinforced my commitment to clean code practices, which are essential for building and maintaining scalable applications.

My work also involved mentoring over 30 students in core programming concepts, including C programming, HTML, CSS, and web development. This hands-on guidance allowed me to reinforce foundational knowledge and practical application of front-end technologies. Combined with my proficiency in Java, Python, and React, I am confident in my ability to contribute across the development stack.

I am eager to apply my demonstrated ability to solve complex technical challenges and my commitment to developing robust software solutions within your dynamic and innovative team. I look forward to the opportunity to discuss how my skills and experience can benefit Undisclosed Innovative Tech Company.

Sincerely,

Uttam Singh
